

Establishment Pro-life Groups Opposing Personhood

Colorado Right to Life - 3401 Quebec St. #10300, Denver, CO 80207 - 303-753-9394 - office@ColoradoRTL.org

Don't trust Eagle Forum and the establishment "pro-life" groups. Please oppose the anti-personhood resolution of Eagle Forum Colorado. By distributing that resolution, Jim and Jayne Schindler have now openly linked their organization to the establishment "pro-life" forces of Focus on the Family, Catholic Bishops, and National Right to Life, all of whom for many years have subverted human life/personhood efforts.

The "pro-life" industry has long been part of the establishment. The betrayal, motivated by power, influence, and money, goes deeper than many realize. If it is hard to believe that these establishment pro-life groups would play politics with human life amendments, please consider these sobering examples:

- In October "pro-life" Republican Paul Ryan said abortionists shouldn't get one red cent but then fully funded Planned Parenthood
- The "pro-life" establishment ignores the fact that G. W. Bush gave Planned Parenthood a billion dollars more than did Bill Clinton
- This establishment ignores the fact that a Republican majority passed *Roe v. Wade*, which was written by Republican Blackmun
- The "pro-life" establishment always ignored that George H. W. Bush is the one who began "Family Planning" Title X funding
- Establishment "pro-life" groups support pro-abortion, pro-homosexual, anti-marriage, anti-religious liberties politicians.
- They supported Romney who attacked religious liberties by ordering pro-life hospitals to dispense abortion pills
- The establishment supported Romney who created RomneyCare which openly fund abortion from day one
- They supported the father of homosexual marriage after Romney ordered county clerks to issue homosexual marriage licenses
- They supported Romney after he horrifically ordered Catholic adoption agencies to place children with homosexuals
- They supported Romney who put Planned Parenthood permanently on the state health board to provide \$50 co-pay abortions
- And as Romney's *own* "exceptions" amount to tens of thousands killed, they support candidates with death tolls in the millions

Even Eagle Forum's founder, Phyllis Schlafly, has described a lifelong radical pro-abortion and recent candidate as America's "last hope" even though he has praised the pro-abortion federal judge Maryanne Barry who upheld even partial-birth abortion as being "phenomenal" and "one of the best" of possible U.S. Supreme Court nominees.

So please challenge the establishment! Reject Eagle Forum's resolution that sinfully states that the Colorado "Republican Party not divert its efforts... by expending resources in support of the 'Personhood Amendment'". The "pro-life" establishment wants a return to the same compromised incremental strategy that's been failing for 40 years. That moral compromise has left us *without a single federal judge* who acknowledges the child's right to life. That moral relativism wants us only to *regulate* child killing. Like, "Wait 24 hours and then you can kill the baby." "Sign a form to provide informed consent and then you can kill the baby." Etc.

At the statewide ballot box, the percentage of voters with the courage to acknowledge the Personhood on the innocent child has grown from 27%, to 29%, to 35%. Personhood is driving a shift in public opinion here in Colorado toward protecting every child by love and by law. So please don't oppose, but instead, stand with the acknowledgement of each child's God-given right to life!
